Any Wi-Fi enabled device is able to connect to the internet via SecureVision Wi-Fi service. A few popular devices are listed below.

Please note:

Some devices have a physical toggle switch to turn the wireless on or off. Other devices use keyboard hotkeys to toggle wireless on and off. Wireless must be turned ON in order to complete steps 3 through 8.

These instructions are a general guide. It may be necessary to refer to user manual for the device(s) for further details.

To connect to the internet:

- 1 Confirm that wireless capable device is powered on.
- 2 Confirm that wireless (Wi-Fi) is active on the device.
- 3 Open wireless control center on the device.
- 4 View available wireless networks on the device.
- 5 Find the wireless (Wi-Fi) access point that is associated with your location.
- 6 Select the "connect" option for that wireless (Wi-Fi) network.
- 7 No login is required to use the SecureVision open wireless service.
- 8 Open a browser session to verify connection to internet.

Equipment CONTROLS

Mode Buttons

SAT: controls the satellite receiver. You will stay in SAT mode most of the time.

TV: controls your TV.*

INPUT: changes TV input

Press the TV button above, then press the INPUT button to see video from other equipment connected to your TV.

Power & TV Power

- Turns the receiver on/off.
- Turns the TV on/off.*

*Only works in TV mode. Not applicable with certain TV makes/models.

Basic Troubleshooting TIPS

The main technical issues that are experienced are:

- On the wrong input

When your TV says “no signal” or is displaying a black, blue or snowy screen, you may be on the wrong input. Make sure the Dish receiver is turned on, showing green and blue lights. Using the DISH remote control press the TV button on the upper left area of the remote. Then press the input button (just below the TV button on the remote) one or more times, typically to HDMI1 input or until a picture appears. Once the TV picture is restored, please remember to press the SAT button (to left of the TV button) to change channels and control the satellite receiver.

- On the wrong Channels list

Press the guide button on the upper right portion of the Dish remote control. This will open up the screen that shows the channel guide. In the upper left portion of the screen, you will see which channel list you are viewing. If you are not viewing **My Channels** list (in green), press the guide button to toggle through until you have selected it.

Basic Navigation CONTROLS

TV Volume

Press the + or – buttons to raise or lower the volume.

Guide

Display current and future TV program listings. Also toggles lists between All Channels, **My Channels**, My HD Channels. The **My Channels** list is the correct viewing list.

Arrows/Browse

With the Arrows, channel up/down to navigate menus and the guide. For Browse (right arrow), look for other channels while watching TV.

Select

Select a show or menu option—like an enter button.

Please remember to use the remote that is labeled for the room you are in!
